

Microsoft Content Services Partner Program

Acknowledgement of Partner Status

Microsoft is proud to recognize HELUX as a Preferred Member of the Microsoft Content Services Partner Program for the program year.

The Microsoft Content Services Partner Program is built and run to help organizations get the capabilities and control they need in their everyday work with an end-to-end content solution. Preferred Partners in the program are recognized for their proven customer success based on Microsoft Content Services through the following workloads and services:

Advisory: helping plan for new systems and/or improvements to existing systems

Implementation: Establishing and activating new systems, including planning, deployment, training, and support

Migration: Moving systems from one operating environment to another

Capture: Digitizing paper and electronic records, validating data, and more

Workflow: Updating processes and workflows so they align with a desired future state

Compliance/Records Management: Managing regulatory and product control information, company policies, and records throughout their lifecycle

Knowledge: Gathering, organizing, sharing, and analyzing an organization's knowledge in terms of resources, documents, and people skills

Hardware/OEM: Manufacturing devices that integrate physical and image processing with Microsoft Content Services

Extensions: Workloads not caught by other categories, such as Data Quality and Viewers

To qualify for Preferred Member status, the above-mentioned organization has completed the following criteria:

- Demonstrated customer success in three of the nine workloads
- Achieved a Gold or Silver competency level in the Modern Workplace & Security area through the Microsoft Partner Network; or have an IP Co-Sell Ready solution
- Had at least four (4) team members complete the Microsoft 365 Knowledge & Insights training series.
- Active engagement in program engagements – including product feedback when necessary
