

Turn Your Content Chaos Into Knowledge With THEMIS ICE & SharePoint Syntex

ABOUT HELUX

HELUX is a Microsoft Gold Partner and a Microsoft Preferred Partner in Content Services. Our goal is to enable organizations to easily collaborate and connect knowledge workers to content using M365. Our deep technical knowledge of Microsoft products along with our AI-powered THEMIS product line makes HELUX your trusted content services partner. Our team of experts is able to deliver innovative and advanced Knowledge and Insights solutions with Microsoft 365, SharePoint, and Teams – ultimately enabling increased productivity and improved efficiencies. **FRIENDLY. SIMPLE. POWERFUL.**

WHAT WE OFFER

Working with SharePoint Syntex & Viva Topics, THEMIS ICE uses AI and Machine Learning to intelligently classify, enrich, and migrate content. THEMIS ICE helps organizations manage their information assets and connects people to knowledge.

THEMIS ICE empowers you to find the right information with the right context wherever it resides in your organization.

You can then perform File Analysis with THEMIS ICE by culling the Redundant, Obsolete, and Trivial information (ROT) allowing you to focus on and manage your business-critical content.

THEMIS ICE helps classify and route the information intelligently by leveraging classification models trained in SharePoint Syntex and applying unique rules to ensure that the right content ends up in the right place, every time.

Take back control of your organization's content and empower your knowledge workers with THEMIS ICE.

See what customers are saying:

"We were able to quickly & easily clean-up & migrate our content to M365 using THEMIS ICE. A great experience working with HELUX."

– Elli Davis, Information Manager, Financial Services
